Criteria and weighting	Level	Comments:
Knowledge and Understanding weighted 25%, Are the major points identified? Are the details presented clearly?	excellent	excellent knowledge and understanding of the topic concept demonstrated in the presentation. You have given an outline of the intended research and concepts in the presentation. If you take this project forward to capstone then expand on research concepts and get more depth in the project from the research concepts at that stage.
Criticality weighted at 25%, Is there a critical discussion/analysis of your methodology/design?	Excellent	There is a critical understanding of evaluation and analysis of the content. For the actual capstone project focus further on the pros and cons of researching. This will give the project the appropriate critical depth when you need to develop discussion at the Capstone project stage.
Structure and Presentation weighted at 10%: Is the presentation well organised?	Outstanding	the structure and presentation of the research proposal summative is completed to an outstanding level. The content is logical, well thought through and clearly presented. The presentations is visually appealing as well as academically appropriate. Clear planning and thought have gone into the development and structure of the proposal presentation itself
Presentation and Communication Skills weighted at 30%: Is the presentation clearly introduced and concluded? Is the presentation well-paced and timed? Is the information presented clearly and concisely? Is the presentation	Outstanding	the research proposal presentation is completed to an outstanding level regarding communication from the visual perspective of the PowerPoint to the actual oral presentation. The assignment is well paced and full of relevant information. There is the odd instance where discussion is a little hesitant, however it does have outstanding pace applied the content overall. A diverse and

style lively, fluent and engaging?		packed discussion looking at the key aspects of study and benchmarking key content.
<p>Use of relevant sources weighted at 5%: Are the major points identified? Are the details presented clearly?</p> <p>Use of relevant sources weighted at 5%: Is there a critical discussion/analysis of your methodology/design?</p>	Excellent	<p>excellent use of research resources which can now be taken forward to the capstone project if you choose to select this topic for that module. From the research resource references that you have found further develop these for the Capstone project if you chose to benchmark this research context at that level. You do understand the concept of criticality from practise and theoretical concepts and so continue to develop your understanding for future summative projects.</p>
Overall		
<p>Positives:</p> <ul style="list-style-type: none"> • Mostly excellent outcomes • with some outstanding outcomes • and an excellent outcome overall 		
<p>Points for development:</p> <ul style="list-style-type: none"> • for future presentations ensure the content is wholly formal and avoid any informal nuances to the presentation • expand on your research concepts now moving forward • this will maintain and develop your criticality for future summative
